Total revenue items			\$ 780,233.32

Current balance of cemetery acct	\$ 400.00
Surplus/(deficit)	\$ -

Notes

* Scheduling: This reflects the maintenance schedule thought to be necessary to properly maintain the cemetery and the fabric of the cemetery. Please contact the Registry for further assistance if the maintenance schedule ought to be adjusted.

^ Calculated cost: This is the calculated cost of the maintenance item at today's dollars. No allowance has been made for inflation over the logevity of the cemetery, as this involves too many variables. To compensate, no revenue item for interest has been allowed, on the assumption that these two figures will be roughly in step.

~ Adminstration fees set at a prorata across all Anglican cemeteries, assuming that a person is employed for 2 days per week to administer all cemeteries, and assuming licencing fee for software.
